H. C. 100

Nice and funny spring play depicting a little horse made entirely of Robinia wood.

The play, with its extraordinary robustness and durability, stimulates children's imagination and effectively transmits environmental value through shapes and materials belonging to nature. All corners are beveled and surfaces are smooth. The 20 mm thick tempered steel spring is equipped with an anti-crushing device and is fixed to the ground with a special hot-dip galvanized steel frame.

Built in Robinia wood harvested in a controlled and sustainable way. The wood is debarked, sapwood removed, sanded and worked by hand to create durable and safe equipment, in compliance with UNI-EN-1176.

Being made of natural Robinia, this article may present a superficial cracking over time which does not cause any problems of durability, functionality and safety.

This item contains a percentage of plastic lower than 1% of the total weight of the structure
