H. C. 35

Funny route for recreational and motor activities composed of a series of trunks protruding from the ground along which it is possible to develop and strengthen balance and motor skills on different difficulties.

It is made of Robinia wood, trunks with an average diameter of Ø 12-15 cm with a completely debarked surface, free of sapwood and sanded. The trunks are worked by hand maintaining their irregular profile for optimal inclusion in a natural environment such as that of green areas. The elements must be fixed to the ground using lean concrete blocks.

Built in Robinia wood harvested in a controlled and sustainable way. The wood is debarked, sapwood removed, sanded and worked by hand to create durable and safe equipment, in compliance with UNI-EN-1176.

Being made of natural Robinia, this article may present a superficial cracking over time which does not cause any problems of durability, functionality and safety.

This item contains a percentage of plastic lower than 1% of the total weight of the structure
