**PERCORSO TATTILE ROBINIA**

 **da 5 metri in su**

 **da 10 mq**

 **6**

 **2-14**

**H. C. 50**

Tactile obstacle course also for the visually impaired consisting of 6 stations. Children are encouraged to reach the last "mushroom", using the stations as a guide. Each station is equipped with colored tactile tiles arranged in relief progressively from number 1 to number 6. This inclusive game allows and encourages use even by able-bodied children who use the game as an obstacle course or as seating. The height of the obstacles from the ground can be defined according to the age of the users. Made of Robinia wood and resin-coated plywood panels for long life. The colored inserts are made with recycled and recyclable polyethylene. The obstacles must be fixed to the ground using a concrete block or metal bracket.

*Built in Robinia wood harvested in a controlled and sustainable way. The wood is debarked, sapwood removed, sanded and worked by hand to create durable and safe equipment, in compliance with UNI-EN-1176.*

**Inclusive play:**

*Functional for use by children and teenagers of all abilities. The "mushrooms" can be used all together, as an obstacle course or as tactile supports to reach the final goal.*

*Being made of natural Robinia, this article may present a superficial cracking over time which does not cause any problems of durability, functionality and safety.*

*This item contains a percentage of plastic lower than 1% of the total weight of the structure*
