H. C. 150

Multi-function castle-shaped play system, made of Robinia wood and composed of two towers that include multiple activities arranged on the ground and on play surfaces placed at 15 and 150 cm.

Access is via a ladder and a 150 cm high climbing net. The upper floor is protected by sturdy wooden balustrades, the descent takes place through a stainless steel slide H150 cm and 300 cm long. The raised platforms are made of sturdy Robinia wood beams and 30 mm thick boards. One of the towers is equipped with a characteristic asymmetrical gable roof. The suspension bridge that connects the two towers is composed of a horizontal trunk with lateral ropes and safety handrails. The supporting structure of the game is made of Robinia trunks with an irregular diameter of 14-16 cm.

*Built in Robinia wood harvested in a controlled and sustainable way. The wood is debarked, sapwood removed, sanded and worked by hand to create durable and safe equipment, in compliance with UNI-EN-1176.*

*Being made of natural Robinia, this article may present a superficial cracking over time which does not cause any problems of durability, functionality and safety.*

*This item contains a percentage of plastic lower than 1% of the total weight of the structure*
